**Mesa County Clerk Tina Peters'** back-ups of the files before AND after Dominion's "Trusted Build" were stated to be **accurate & authentic** by **Colorado Secretary of State Jena Griswold.**

According to Tina Peters:

**Report #1:** The Dominion Voting Machines' "Trusted Build" (Orwellian 1984) **illegally deleted 29000 voting records** that could have been used to prove how they get to the results of the election.

**Report #2:** Said that "there were **36 wireless devices in the system, which is illegal.**" She said that the **63 Colorado County Clerks who did not back up their files were in violation.**

**Report #3:** Showed that they actually committed fraud and **switched votes on a local city council election.** (These changes by the machines were all hidden from the election workers, including the Clerks.)
