

TCFamily.org Promoting NaturalFamilyStrong.com Ver-02.3 07/01/24

Throughout Traverse City and Grand Traverse County and all of Michigan and the USA and much of the World you can find 'gay flags' – and locally, 'Up North Pride' signs. This is a

[Traverse City Neighborhoods Map:](#)

In fact, the [Traverse City Central Neighborhood Association](#) has a photo on their website promoting the 'Traverse City Rainbow Road' from a few years ago. (I have spotted about 70 'LGBTQ' signs or flags just in the Central Neighborhood.)

However up until just recently, I have not known of any signs in any neighborhood that promote the Natural Family. But now, I've discovered a great website that promotes the American Traditional www.NaturalFamilyStrong.com (NFS) Family. As they state on their website: **"The Natural Family is the cornerstone of all civilization.** Societies must do all they can to maintain, nurture, promote and protect this critical family unit." Plus, NFS has two following great street signs to promote the Natural Family:

TCFamily.org has these signs in stock and we are selling them at our cost just to get them out in Traverse City and all surrounding communities. (See contact info at end of flyer.)

You can find out much more of why it is vital that we protect the Natural Family at www.NaturalFamilyStrong.com.

The following are EXCERPTS from the NFS website:

The NFF (Natural Family Foundation) Plan

... Here at the Natural Family Foundation, we realize that we exist in a politically and emotionally charged environment where *"public opinion makes tomorrow's laws, and those laws become the next generation's morals."* We are trying to tip the scales of public opinion to *once again* support and defend the Natural Family. Our laws should protect and encourage the growth of that family unit. Today's laws do just the opposite, which means our nation's very foundation is being threatened.

Our Core Beliefs

The Natural Family is the cornerstone of all civilization. Societies must do all they can to maintain, nurture, promote and protect this critical family unit. The moral fabric of a society is obliged to protect this family representation, and virtuous social contracts act like constraints surrounding and providing for its support. When the fabric is torn and/or the social contracts become immoral, working against the traditional family, then society as a whole is threatened with extinction. For society to survive, the fabric must be mended by readjusting the social constraints/contracts (public opinion) to once again favor the *age-old* Natural Family prototype.

Institutions within a society are obliged to acknowledge the validity and legality of the original Natural Family model and build their institutional foundations upon and around it. This means that the business community, news media, *education* providers, entertainment, government and the church should all do whatever is necessary to support the natural family as if their organizational lives depended upon it...because they do. ...

Mission / Values / Vision

"Since the 1940's the American family has been on the fast track to destruction. We have come to the point in our nation where today's families are literally anything goes and as a direct result the future of the natural family and our nation are in a constant state of peril" - James Harrison, Director | Natural Family Foundation

- **MISSION:** To return the Natural Family to its rightful place as the Foundation of our American culture

- **VALUES:** When we speak of family, we consider that to be without question one biological born man and woman in a lifelong, committed, monogamous relationship with their biological and/or adopted children. Anything outside of these NATURAL parameters by design causes undue stress on the marriage, children and society.

- **VISION:** We envision the family restored to its natural form and functioning once again as the primary building block of a stable, thriving society. We look forward to a future where divorce and premarital sex are uncommon, and children seen as a blessing, not a burden. We consider the home to be the ideal nursery for a healthy sense of morality and a deep respect for legitimate authority. The subversion of the authority of parents and the privacy of the home by various governmental agencies and other non-family institutions must end.

Natural families are strong families and strong families make strong communities, churches, businesses, as well as the other significant institutes within a society. As goes the family . . . so goes the nation. ...

THE NATURAL FAMILY PROMISE

I PROMISE to support the restoration and concept of the natural family; I believe the family is the foundation of all strong societies including the United States.

I BELIEVE the natural family consists solely of: one biological born man and one biological born woman committed in a lifelong monogamous relationship to include their biological and or adopted children.

I COMMIT myself to work with others to help strengthen this concept, and gladly add my name to the list of Natural Family Foundation supporters.

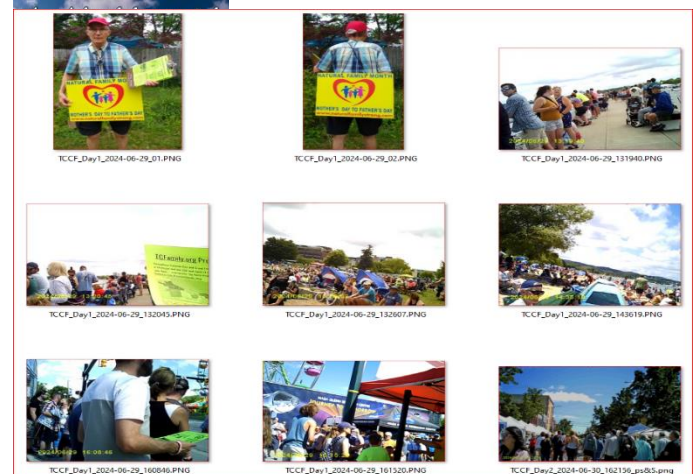

I WILL DO everything within my power to encourage the growth of the natural family and to put it in the prominent place it must occupy in order for this republic to continue to be the greatest nation on earth.

#####

In closing, this is one of the www.NaturalFamilyStrong.com signs that was recently placed in Traverse City. We pray that there will be many more to follow to show the great importance of promoting the Natural Family Strong.
